Allergen Guide

Please take note of the following when making a menu selection dependent upon our allergen information:

We have prepared this guide to assist our guests with food sensitivities or allergies. While we use reasonable efforts in our sourcing, preparation and handling procedures to avoid introduction of the named allergens into these menu choices, we are unable to guarantee that any menu item will be free of any allergen.

Our menu items are handcrafted in our restaurants, which are not allergen free environments. Menu items may be prepared using shared equipment (including common fryers) and cross-contact with allergens may occur. We rely on supplier ingredient labels, which may not be accurate, and which may contain unregulated advisory statements such as "may contain." We do not take these unregulated statements into consideration when developing allergy-friendly meals.

Before placing your order, please inform your server if a person in your party has a food allergy or other food sensitivities.
